RECENT LEGISLATIVE ACTION established the following use of registration fees in the state's public universities:

<u>Full Time Student Per Quarter</u>	<u>Undergraduate</u>	<u>Graduate</u>
Matriculation fee	\$112.50	\$162.50
Building fee	15.50	15.50
Student financial aid fee	4.50	4.50
Capital improvement fee	20.00	20.00
Student financial aid trust fund	3.00	3.00
Activity and service fee	34.50	34.50
	<u>\$190.00</u>	<u>\$240.00</u>
Part Time Student Per Quarter	16.00	20.00

Tuition fee for non-Florida students, in addition to the above, is now \$350, with 9 hours considered the minimum for full time. Part time fee is \$27 per credit hour.

The law also provides that the building, student financial aid and capital improvement fees are to be remitted to the Board of Regents for allocation among the several universities. The student financial aid trust fund fee will be remitted to the Board of Education to be administered by the Department of Education.

A further ruling of the legislation provides for adjustment of the fees by the Board of Regents "for experimental programs of differential fees to even enrollments over four quarters."
